# PERFORMANCE REDEFINED

The AVIO MIPS is Bollé's most advanced high-performance road cycling helmet we've ever created. A balance of lightness, ventilation, aerodynamics, and comfort while maintaining the strict requirements involved with helmet certification. Numerous design iterations were necessary to balance these attributes into a single helmet. The result is the most lightweight, ventilated, aerodynamic helmet Bollé has ever designed.

## STRIKE-CAGE TECHNOLOGY

The strike-cage reinforces the helmet structure and pushes the limits of vent sizing that impact certification would allow. Large front vents are aligned with small rear exhaust ports to create a low-pressure zone at the rear of the helmet. This low pressure pulls air through the helmet keeping the rider's head cool.

## OPTI-DOCK

With Bollé's deep history of eyewear design and development, we made sure to have a dedicated place to stow your eyewear. The Opti-Dock storage system has been designed with flexible rubber fins that securely hold frames of all sizes and styles without temples contacting your head or obstructing airflow.

## KAMM TAIL

Through Computational Fluid Dynamics (CFD) testing on a supercomputer, we were able to refine the helmet's geometry to minimize drag and reduce wake to create a fast aerodynamic shape.

Constantly looking to optimize the weight of our helmets, we have chosen MIPS's most lightweight rotational impact solution for our AVIO helmets. The padding design reduces rotational forces during impact while giving the impression of wearing nothing.

## PERFORMANCE CLICK-TO-FIT™ SYSTEM

The system has been completely redesigned to be even more comfortable, lightweight, and adjustable. Women's needs were also considered, the fit system can be lowered to accommodate a ponytail.

## AVIO AERO PROGRESSIVE EPS

The next generation of Bollé's AVIO Progressive EPS technology combines high- and low-density impact management while directing and increasing airflow through the helmet. Deep channels and recesses inside the helmet improve airflow while lowering the density in specific areas and without compromising the ability to provide impact protection.

OFFICIAL SUPPLIER  
**B&B HOTELS - KTM**  
 UCI Pro Cycling Team

Created back in 2017, the B&B Hotels - KTM team is based in Brittany. Cycling has been in the region's blood for more than a century. **For training and competition, the riders wear the best products from Bollé's Performance range**, including the C-Shifter with its Volt lens, the Icarus equipped with exceptional-quality, all-weather Phantom lenses, and the new Avio Mips helmet from spring onwards.

*«We're really proud of this partnership with Bollé. Collaborating with such an emblematic brand, with deep roots in our sport, guarantees both quality and reliability. We are all aware of Bollé's history and the riders know that they can entirely trust the products. They are the first ambassadors for the products they wear and can provide the brand's management with feedback. The first year of our partnership drove everyone forward and saw key improvements being made. Sunglasses and helmets are key items of kit to ensure rider safety and performance: we all want the best quality possible.»*

The AVIO is Bolle's ultimate high-performance road helmet. The fastest cycling helmet ever designed by the brand has it all. Ultra-lightweight thanks to its EPS design, lightweight in-molded components and optimized fit system, it features MIPS AIR, MIPS's most lightweight brain protection system. Super ventilated, the AVIO is designed to align both deep internal channeling and large front vents with small exhaust ports that create low pressure at the rear of the helmet for extra air circulation. Developed to make you faster with cutting-edge aerodynamics, the AVIO has an optimized low-profile shape and is equipped with the AVID Aero Progressive EPS to direct airflows and manage impact energy. Conceived to reduce drag thanks to its Kamm Tail at the rear, the AVIO is all about details with an Opti-Dock designed to securely hold all-sized sunglasses and even a ponytail compatibility. **PLATINUM**

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical. Platinum represents the highest level of expertise in anti fog and anti scratch protection.

With **Phantom**, Bollé brings this expertise to everyone. A perfect protection with a more performing anti fog and an anti scratch that last 40% more than the standard.

**LIGHTWEIGHT**

NXT<sup>™</sup> material is close to the lightest lens material available today, at 14% lighter than polycarbonate. This allows for larger designs with fuller coverage, ultimate protection and utmost comfort.

**AVAILABLE IN PRESCRIPTION**

Because everyone's vision is unique, our NXT<sup>™</sup> lenses are available with our B-Thin Technology, suitable for 99% of prescriptions.

**HIGH IMPACT RESISTANCE**

NXT<sup>™</sup> lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT<sup>™</sup> is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

**OPTICAL CLARITY**

Made with NXT<sup>™</sup> material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT<sup>™</sup> material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

**PHOTOCHROMIC PERFORMANCE**

Phantom lens technology adapts to any light condition, ensuring precise visual acuity whatever the weather. The lens tint changes with the light from cat.1 to cat.3. Enhanced vision whatever the conditions.

**HIGH CONTRAST**

Bollé has advanced the performance of Phantom lens technology by adding a high contrast filter on its lenses. Available on all Phantom lenses, the high contrast filter boosts colors and significantly enhance your vision. Whether you are on the road or on trails, high contrast lenses will help you perceive the obstacles.

**THE FIRST LENS EVER DEVELOPED WITH ARTIFICIAL INTELLIGENCE**

1. Find out which wavelengths to enhance or dampen
2. Design and develop the chemical compounds (pigments) that will absorb the right wavelengths
3. Put together the perfect blend of pigments for the transmission curve we want to achieve

# RX LENS TECHNOLOGY

EXPERIENCE THE ULTIMATE IN PRESCRIPTION

## PRECISION OPTICS

- Phantom Technology: optical photochromic lenses
- Hydrophobic/Oleophobic treatment
- Adjustable nosepiece and temples
- Wide range of shield colors
- VOLT + lenses also available soon.

## B-THIN ACTIVE DESIGN

Our prescription technology is now integrated on our spherical shields frames (e.g. Lightshifter, Chronoshield, Lightshifter XL, ...). Most shield lens colors will be available in the coming months.

## AVAILABLE IN 99% OF PRESCRIPTION

(+6.00 to -8.00, cylinder to -4.00) combined power

## XXL FIELD OF VIEW

Laser cut inserts (no optical clip) for optimal lightness

# PRESCRIPTION PROGRAM

A FAST & INTUITIVE WEBSHOP

## WHAT IS B-THIN ACTIVE DESIGN TECHNOLOGY ABOUT?

Software using the most advanced calculations is used to create customized lenses and the ultimate in lightweight products. Every prescription is reassessed to compensate for optical distortions related to the frame wrap angle. When the prescription reaches the limits of the conventional digital surfacing method, our patented algorithm calculates the best lens geometry regarding the optical area, the transition zone and reduces the edge thickness (US patent number 8,002,404). Every product is customized to the prescription, frame and wearer's facial metrics, ensuring optimum precision, comfort and frame balance for sports sunglasses.

1 VISIT OUR WEBSHOP  
[WWW.BOLLE.COM](http://WWW.BOLLE.COM)

2 JUST A FEW CLICKS  
IS ALL IT TAKES

3 PLACE YOUR ORDER  
ONLINE

## NEW WEBSHOP COMING

During Fall 2021, a new version of the RX Webshop (link to be found on : <https://www.bolle.com/gb/prescription-program.html>) will be available to the opticians, to make the RX ordering process even easier.

New webshop, more informative, easier to use : you can enter the prescription details of the frame wearer and the webshop will automatically filter for you the available frame & lens combinations corresponding to his (her) prescription.

A lens thickness calculator also helps you to anticipate the best solution for each wearer.
