About Flaxta

Flaxta is built on a mission of redefining sports protection through a thoughtful approach to performance, style, and innovation.

Our products and concepts have been created to offer a new level of protection and performance, while igniting the passion of our users.

We are proud of what we have accomplished over the years and are excited to continue innovating and making a difference in the world of sports protection.

Welcome to the world of Flaxta!

Where technology meets adventure.

True to our mission of redefining sports protection, we're always seeking new ways to improve safety for our users. Aware is a pioneering initiative dedicated to connected safety, and includes a range of cutting-edge technologies and solutions that help us push the boundaries of protection.

QUIN is capable of evaluating dangerous g-forces and measuring changes in velocity, concussion threshold, rotational and linear inertial changes and more. In the event of a high impact, QUIN sends event details to emergency contacts via SMS, email and push notification.

RECCO® makes you searchable to professional rescuers in the event of an avalanche accident or when lost in the outdoors. Wearing gear equipped with RECCO reflectors enables professional rescuers to locate you with RECCO detectors.

Twiceme technology allows the wearer to upload medical information onto the helmet, making it possible for a bystander, co-rider or first responder to help the person in need. By tapping the Twiceme symbol on the helmet with a smartphone, anyone can alert, relay location and access critical information uploaded by the wearer.

The QUIN Sensor

The QUIN sensor is capable of evaluating dangerous g-forces and measuring changes in velocity, concussion threshold, rotational and linear inertial changes and more.

- QUIN-sensor included.
- Integrated twICEme technology.
- Integrated RECCO reflector.
- Mips (Multi-directional Impact Protection System)
- Hybrid construction for optimized weight and durability.
- 100% recycled EPS core.
- Foamfit - adaptive foam for individual fit.
- Primaloft liner for added warmth.
- Fidlock magnetic buckle.
- Adjustable ventilation.
- Size adjustment system.
- Compatible with Flaxta ID.

Sizes	M/L (55-58)
Weight	575 g (M)
Material	EPS core, PC main shell, ABS top shell
Certification	EN 1077-B

1010 Black

Crash Detection

In the event of a dangerously high impact, Quin sends event details to emergency contacts via SMS, email and push notification.

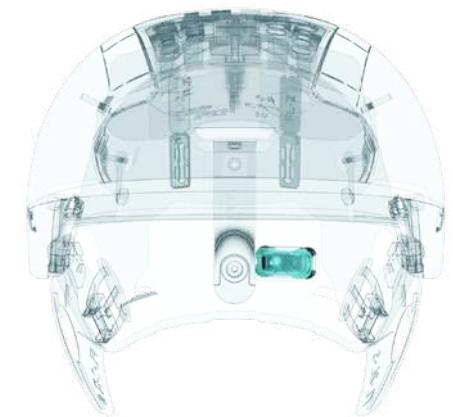

S.O.S Beacon

For every non-crash emergency, you can manually trigger the S.O.S. Beacon through tapping 4x on the helmet or by clicking the button in the Quin app.

Helmet Details

Helmet Details provides impact mapping so that the user can track not just every hit their helmet takes, but also where that impact was made, the force of the impact, as well as the collective damage over time.

Deep Space Alpha Mips

1010 Black

twiCeme technology

twiCeme technology allows the wearer to upload medical information onto the equipment, making it possible for any bystander, co-rider or first responder to help the person in need.

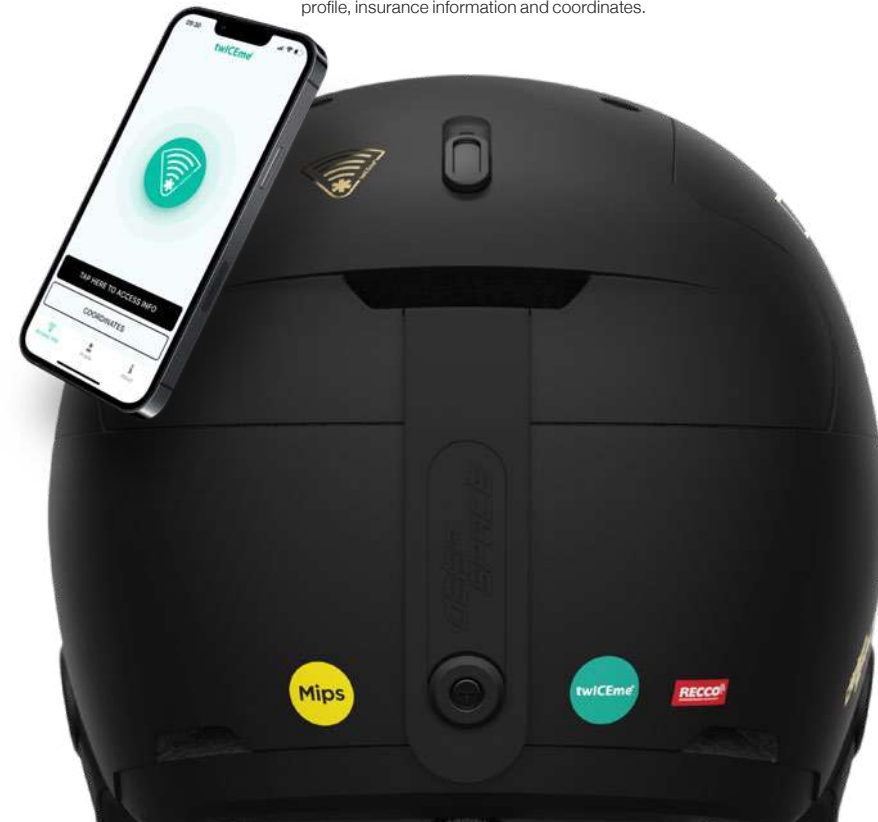

By tapping the twiCeme symbol displayed on the helmet with a smartphone, anyone can alert, relay location and access critical information uploaded by the wearer.

Scan the twiCeme symbol with a smartphone to access vital information such as medical profile, insurance information and coordinates.

- Integrated twiCeme technology.
- Integrated RECCO reflector.
- Mips (Multi-directional Impact Protection System)
- Hybrid construction for optimized weight and durability.
- 100% recycled EPS core.
- Foamfit - adaptive foam for individual fit.
- Primaloft liner for added warmth.
- Fidlock magnetic buckle.
- Adjustable ventilation.
- Size adjustment system.
- Compatible with Flaxta ID.
